

Trim up close.
Throw the clippings out back.

Dedicated Rear Discharge Decks for FrontMount™ Power Units

The 35 Series decks throw grass clippings out the back of the deck, handling large volumes of grass and keeping clippings on the turf. The new configuration provides improved distribution of clippings in moderate conditions.

These dedicated rear-discharge decks combine the benefits of rear discharge with out-front deck reach and QuikConverter™ implement capability to enhance government, fleet, cemetery, orchard and vineyard applications.

DuraMax® deck construction features Sentry™ spindles, 8-inch spindle flange with six-bolt pattern and anvil-edge design for geometric strength with 7-gauge skirts to withstand the brunt of commercial mowing.

Standard PowerFold® deck lift/electric cutting height adjustment provides effortless access to the underside of the deck and allows compact storage.

The 35 Series deck detaches from the power unit easily and can be interchanged with a range of all-season implements in minutes without tools for greater productivity in every month of the year. Learn more about QuikConverter™ implement interchangeability at grasshoppermower.com/implements.

35 Series Dedicated Rear Discharge Deck Specifications

DECK MODEL	3552	3561
WIDTH OF CUT	52 in.	61 in.
DECK WIDTH	53.5 in.	62.5 in.
CUTTING HEIGHT	1.0 to 4.5 in. (2.5 cm to 11.4 cm)	
CONSTRUCTION (Robotically welded steel)	Formed, double thickness steel (0.269 in. > heavier than 3-gauge) truss spindle plane and (3) Sentry™ spindles with 8-in. spindle flanges and 6-bolt pattern on a triple-strength upper deck, more than .50 in. thick in stress zones for superior strength. Geometrically engineered design with 7-gauge skirts withstands the brunt of commercial mowing. 8-in. spindle flange housing with 6-bolt pattern. Double bearings greasable from the top of deck. Deck spindle cones shield housing and lower bearing from fiber wrap and dirt ingestion.	
SPINDLE BLADES	(3) 18 in.: (1) 320236 + (2) 320280	(3) 21 in.: (1) 320242 + (2) 320285

Mow through tall grass and throw clippings out back.

Features

- Trims on both sides of cutting deck. Accepts Edge-EZE™ edger, which mounts on either side of the deck for time and labor savings, especially on large jobs.
- Greasable high-impact, high-rotational speed bearings with durable seals for spindle longevity.

- Unique counter-rotating design channels the load of grass clippings and material to the center and discharges out the rear of the deck.
- Anvil-edged deck offers superior impact protection with a 1/2-inch-thick formed steel leading edge.
- Angled design creates more strength than squared decks with extra steel welded to the leading edge.
- Robotic-welded, heavy-gauge steel construction that is more durable than stamped steel designs.
- Easy top-side access to belts and pulleys for simplified maintenance.
- 35 Series decks come in 52- and 61-inch cutting widths for Grasshopper FrontMount™ zero-turn mowers.

Grasshopper 35 Series Decks

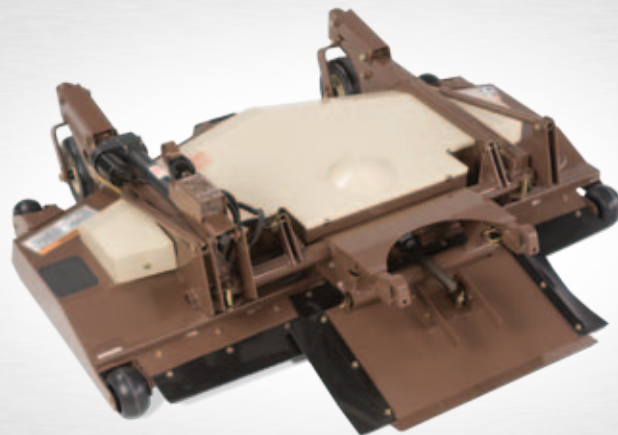

FITS FRONTMOUNT™ POWER UNITS

620T, 700 and 900 Series
700 and 900 Series

CUTTING WIDTH

52 in.
61 in.

QuikConverter™ power shaft lets you remove deck and install implements quickly and easily; no tools required.

Standard trash shield attaches to the rear of the deck to protect the PTO shaft and coupler from discharged clippings and debris, and is hinged for terrain-following articulation and PowerFold® function.

Options

- Trash shield for power unit to deflect clippings away from engine.
- Edge-EZE™ edger: Left- or right-side capability.
- **Interchanges with full line of productive implements: AERA-vator™, turbine blower, shielded sprayer, DriftBuster™ snowthrower, Little Bully™ dozer blades and CleanSweep™ rotary brooms.**

Speed up close trimmings near fences, buildings and other obstacles with optional heavy-duty TrimMaster™ roller kits for left or right side.
