

QuikConverter™ Implements and Accessories For Grasshopper True ZeroTurn™ Mowers

Complete, integrated Grasshopper grounds maintenance systems **save you time and labor on every job**. Replace expensive single-purpose equipment, eliminate the need for cumbersome auxiliary engines and simplify maintenance with powerfully efficient QuikConverter™ implements.

Simply remove the deck and quickly install a close-coupled QuikConverter™ implement — **in minutes without tools** — positioned for optimal traction, visibility and maneuverability, to finish each job much faster and more easily than pulling an implement behind.

Best of all, every Grasshopper implement features **professional-grade, heavy-duty construction** that ensures powerful, trouble-free performance season after season. Implements fit current models and most older Grasshopper power units and can be used with most future models when you upgrade years later.

**Get the job done in 1/4
the time with 1/4
the labor.**

**Find out how a Grasshopper/Turbine Blower system saved
a contractor more than \$17,000 at grasshoppermower.com/turbine.**

Turbine Blower

Utilize Grasshopper's True ZeroTurn™ maneuverability to clean leaves and debris from congested, hard-to-reach or wide open areas and long stretches of walkways and curbs. Finish the job in a **fraction of the time** required by backpack blowers and walk-behind units. Create a beautiful appearance and help keep turf healthy by removing excess leaf cover. **Quicker and much more maneuverable** than pulling the blower, with **no extra engine to service**, and you can **switch to mowing in a couple of minutes**. For use with 700 Series and 900 Series FrontMount™ power units.

- Significantly quieter than most debris blowers
- 360-degree electric nozzle rotation
- Powerful and maneuverable
- QuikConverter™ design – quick and easy on and off
- PTO-driven power

Turbine Blower Specifications

TURBINE BLOWER	
Order #	533225
Directional control	12-volt remote control for 360-degree electric nozzle rotation
Total width	35.5 in. (90.2 cm)
Height	30 in. (76.2 cm)
Length	63 in. (160.0 cm)
Weight	215 lbs. (97.5 kg)
Compatibility	700 and 900 FrontMount™ models

With one employee and a Grasshopper/turbine blower system, we completed a 26-mile curb cleaning project in four hours, when it had been taking four guys with backpack blowers almost three days (22 hours) to complete.

~ Scott Brewer, RCI, Slidell, LA

Professional features. Flawless performance.

Little Bully™ Dozer Blades

These tough tools push their way through loose dirt, sand or gravel quickly and easily, with True ZeroTurn™ maneuverability to save time and labor. Our dozer blades are also great for snow* removal.

- 48- and 60-inch dozer blades operate straight ahead or 25 degrees left or right
- Blades can be raised or lowered with hand or foot controls for easy operation; optional foot-controlled angling kit available
- Pro model with foot pedal lift and hydraulic angling combines easy operation with responsive performance for time-saving efficiency
- 60-inch PowerBlade™ hydraulically lifts and angles blade easily

Weight (Uncrated)	154 lbs. (69.9 kg)	168 lbs. (76.2 kg)	193 lbs. (87.5 kg)	195 lbs. (88.5 kg)
Compatibility	600/700 Series		700 and 900 Series FrontMount™ Models	

Sunshade Canopy

Diamond-plated aluminum or heavy-duty vinyl sunshade canopies mount on ROPS to shield operator from the sun while providing plenty of headroom, limiting exposure to direct sunlight and heat, reducing eye strain and increasing operator comfort.

Aluminum (75 lbs): Fits 200, 300, 400, 700 and 900 Series.

Vinyl (30 lbs): Fits all models.

*Ask for more information about snow removal systems. Models may be shown with optional equipment.

CleanSweep™ Rotary Brooms

PTO-driven rotary brooms sweep dirt and debris away in record time, making it ideal for sidewalks, parking lots — even walking paths and tracks. Powerful performance also clears up to 8 inches of snow* in the winter, making it a true all-season tool.

- Fixed angle models operate at a 25-degree angle to the right
- 60-inch bidirectional model can be adjusted (hydraulically) from the operator's seat up to 25 degrees right or left and raised (electrically) up to 2 inches
- Optional jack stand for 60-inch models speeds QuikConverter™ mounting process
- Wavy bristle pattern creates a side-to-side sweeping path to pick up large and small debris
