KASCO'S HITCHING SYSTEMS

UNI-HITCH SYSTEMS for FRONT END LOADERS

Uni-Hitch with Optional Pin-On Attachment Plate

Model UH-2 Offers Adjustable Channels for Use on a Wide Range of Compact Loaders

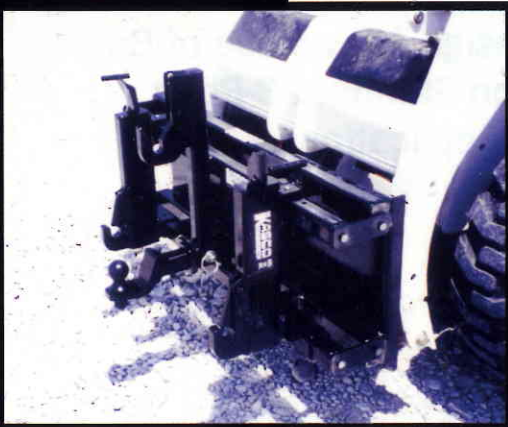

Kasco's Uni-Hitch System Adds Versatility to Your Front End Loader. Designed for most Compact Front Loaders, the Uni-Hitch allows the use of Universal Hitch (Skid Steer Style) Attachments.

The Uni-Hitch for Loaders is a 2-Part System:

1. The Hitch Adapter Pins onto Your Loader for Use of Skid Steer Attachments.
2. For Use of Standard (Non-Skid Steer) Attachments, Adapter Plates May be Added to the Attachment. Your Choice of a Weld-On or Pin-On Plate is Available.

With the Uni-Hitch, Changing Attachments is a Snap!

THE SWITCH HITCH

The Switch Hitch Allows the Use of 3-Point Implements on Your Skid Steer Loader.

- Quick Attach Hook-Up on Skid Steer Side
- Quick Hitch Technology on 3-Point Implement Side
 - Receiver for Class II Ball Hitch
- Choice of Hitch to Accommodate Cat.I, or Unit to Accommodate Cat.II, or Adjustable Unit for Either Cat.I or II.
